thereof, except by a resolution supported by not less than one half of the whole number of Councillors, and passed at a general meeting where of notice shall have been given, fulfilling the requirements of sub-section (3) and setting forth fully the resolution which it is proposed to modify or cancel at such meeting, and the motion or proposition for the modification or cancellation of such resolution

5. It is further submitted that the Boards' finances being in a very unsatisfactory condition (a debit balance is expected to be left at the end of this year) it is a point for consideration whether the original works of the kind may not be postponed and the President asked to utilize the available funds for completing the incomplete works of last year for which a sum of Rs 10,789 is stated to be required (vide President's letter No 64 of 21-10-'02 submitted to Assistant Secty to-day)

Submitted for orders

5/11/1902

I am inclined to think that the President is right as to the needlessness of placing the matter again before the Council. As the matter is not in a very serious nature, I am sure that it is expedient that the Int Press Bureau be set aside. Draft is kept ready to this view. Please submit for approval to the new one through the 2nd Counsellor.

14/11

Draft sent to 2nd Counsellor.

18/11/1902

I am not sure that the solution proposed is quite satisfactory. Let the President know me when I visit him some day next week. (A DO to him will do) - This file may be sent to Secretary again on Monday next.

24/11/02

I will keep this file with me till first week of Dec. The President may be informed as early - Please let me have this file back after Dec. 1 25/11/02.

Enclosure 5

I am sorry my other engagements have not enabled me to visit the Mysore city this week as I intended - But in the work in question really urgent? could it not wait till the end of next month? The overruling of the Resolution of so important a body as the Municipal Council of the Mysore city - requires further consideration - If the Ramanujaiyengar thinks that some should take immediate action I should try to go down to Mysore for a day or two before leaving for Delhi in company if possible with the Finance Member whose opinion I should find on the record - The Secy will kindly write to the President - Dewan officially & let me see his reply as early as possible - My own opinion is that there is no special urgency and that Mr Iyengar should undertake this work of improvement on the face (1) of the Municipality under the (2) of the Boards Circumscription - I send the President my good wishes for success - The Budget figures proposed by the President and sanctioned by the Govt have all been initiated by recent disclosures and I do not quite understand how any expenditure cannot be incurred by the Municipality when it is not in a position to bear it -

Yours sincerely
C Sankaran Nair

Sir,

With preference to your No. 19110 / LF 70-99 (16) dated 11th June 1902 inviting attention to Government Proceedings No. 4834 / LF 120-92 dated 24th September 1892 and requesting that the resolution of the Board in the matter of constructing a drain at a cost of Rs 500 to carry off the sewage water from the — building used by the Boarders in "Hardwicke College, I have the honour to state that the Proceedings quoted above seems to apply to the business connected with Local

Local Fund Boards Municipality is —
administered under a distinct Regulation
wherein no provision exists for the disposal
of any question in regard to which there exists
a difference of opinion between the President
and the Board Although section 22 of the
Municipal Regulations lays down that a
question should be decided by majority of
votes I consider that in the interest of the
Sanitation the resolution of the Board in
regard to the construction of the drain —
Cannot be allowed to stand If the Board
pass a resolution in spite of the explanation
furnished by the President who holds a —
different view, no object appears to be served
by bringing the question again before the —
Board This course entails much loss of time
I would accordingly recommend that a —

Second

Second reference to the Board on a question about which they have adopted a resolution after full consideration may safely be dispensed with

No G 272

Dated 12th February 1903

Sir,

I have the honor to acknowledge the receipt of your No.11483/L. R. 48-02 of 7th Instant and in reply forward herewith my opinion re the construction of a drain near the Hardwick College at Mysore. On Saturday the 24th January I went down to Mysore and in company with the Vice President inspected the place where it is proposed to construct a drain at a cost of Rs.500/- to carry off the sullage from the building used by the boarders of Hardwick College. The sullage from the cook and wash rooms escapes by several openings into a drain running North and South, (not a built one) to the East of the College & is carried down to the South where it empties itself into a cross drain running East and West. At the site of the different openings it is true that a good deal of sullage has collected and as the drain is not a masonry one a good deal has soaked into the ground and rendered that portion of it insanitary, and very little of it has found its way down to the cross drain.

That something should be done to remedy the defect, there can be no doubt but whether it is necessary to go to the expense of laying down a V shaped drain at a cost of Rs.500/- in order to carry it away, is quite another thing and I am inclined to think that the sullage from the wash and cook houses might be disposed of in a different manner and at a less prohibitive cost As the matter to be disposed of is only sullage, and contains no solid *faecal* matter, the question of its disposal is not so difficult. The population all told of the Hardwick College, Boarders servants Etc is something under a hundred (89) and I am of opinion that a small septic tank would meet the requirements of the case and if it proved successful others might be built- I propose having an estimate prepared and hope that the amount that will be required will be less than that estimated for a drain. Even if it cost as much it will be a move made in the right direction.

I have the honor to be,

Sir,

Your most obedient servant
